

The SmartPak Pharmacy Dog and Cat Product Information Sheet

Albon® Tablets and Oral Suspension 5%

Common Drug Name – Sulfadimethoxine

How Supplied by SmartPak- Albon is available in the following dosage forms for dogs and cats:

Tablets: 200 count bottle of 125mg strength, 500 count bottle of 250mg strength

Oral Suspension: 16-oz bottle, each tsp (5ml) contains 250mg Sulfadimethoxine (5%) in a custard-flavored carrier.

Category – Albon is a sulfonamide antimicrobial agent.

Caution - Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Indications (Uses) – For the treatment of Sulfadimethoxine-sensitive bacterial infections in dogs and cats and bacterial enteritis associated with coccidiosis in dogs.

Dosage and Administration –

Tablets: Initial dose is 25mg/lb. Subsequent daily dose is 12.5mg/lb. Subsequent doses should be given at 24-hour intervals.

Oral Suspension: Dogs and cats should receive 1tsp per 10lb of body weight (25mg/lb) as an initial dose, followed by ½ tsp per 10lb of body weight (12.5mg/lb) every 24 hours thereafter.

Contraindications – Do not use this product on cats.

Warning – Not for human use. Keep out of the reach of children.

Precautions – During treatment period, make certain that animals maintain adequate water intake. If animals show no

improvement within 2 or 3 days, a veterinarian should reevaluate the diagnosis.

Adverse Reactions (Side Effects) – Data regarding acute and chronic toxicities of Sulfadimethoxine indicate the drug is very safe.

Storage Conditions: Store at controlled room temperature 59 – 86F.
